Re: 2010 Drill Objectives

July 2010

OTEP – OTEP- "Sick / Not Sick" - The concept of looking at your patient and making quick concise critical thinking.

Membership Meeting – This is to update our members of any changes in Association Plans. In addition updates members on Spring 2005 events.

Quick Attack Drill to the clocks – This is a multi-company drill to take a hydrant, forward lay to building, ladder to roof and stretch a 1 ¾ to door.

Engine and Hose Ops- This is a basic review of Engine Company Operations and the basic hose Ops. This standard evolution will ensure will can deploy hose and water to a fire for time.
